

**President of the Local Government Association of Queensland**, Paul Bell says *"if there aren't changes, direct funding by the Commonwealth for programs like the Roads to Recovery could be in jeopardy. 99 per cent of it spent on roads that are not able to be funded through local rates."*

**(so where is your License and car registration money going now ?)**

Paul Bell says that in some instances, communities want to work with the Australian government directly rather than via their state government.

**He accepts there is likely to be opposition by a number of States.**

*"They like to be able to control the size, the shape and how local governments in their state work." .. "We as local government are part of the constitution of the State,*

**NOTE - what is not said is State Constitutions are fraudulent as they have never been approved by the electorate at referendum and are in breach of Sec 109)**

And he says - *"but what we are saying is where in the local interest, there is a national opportunity for the Australian government to work directly with local communities, that should be able to happen legally."* In other words, they know they are NOT currently acting legally and are charging monies illegally.

As part of Labor's negotiation to form a minority government, Julia Gillard gave an undertaking to hold a referendum on indigenous recognition in the Constitution as well as constitutional

recognition for local government. *(I'm sure the indigenous people are NOT so excited about this nonsense And remember, we are being dictated to by a few independents who betrayed their own electorates)*

**Local Councils are PRIVATE COMPANIES with ABNs  
Their true purpose - to provide essential services + maintenance**

**Don't say "there's nothing I can do"**

The public need this information and it is up to you to place a hard copy in their hands. It is NOT ENOUGH to just sit and forward this email to a few who might do likewise. If you care for your neighbour, yourself, your children and their future, print many copies, leave your beloved computer for a while and letterbox your area, your club and everyone in your Church. 1000 leaflets will cost you about \$60.

If you choose not to, then expect more rules, harassment, fines and massive rates increases.

**Love thy neighbour as thyself.**

**All that is necessary for the triumph of evil is that good men do nothing.**

## **Why does your Council desperately want recognition in the Constitution ?**

An "expert" panel is commissioned by the Gillard government to try to figure out how to squirm into power, their unlawful and unconstitutional Local Government (ie - your Local Council).

The "expert" panel wants Australians to vote for a change to our Commonwealth Constitution, which would give local government (Councils) recognition.

### **This shows 2 blatant facts**

- 1 - The Government knows that the Constitution and Common Law prevail,**
- 2 - The very fact that there is a move to have Councils recognised is PROOF that they are NOT recognised.**

And why did our wise founding fathers who drafted the Constitution deliberately exclude Local Govt.? Simple - to prevent local dictatorships, harassment and corruption in towns, communities and cities. Read - The Origins of Common Law by Arthur R Hogue (Liberty Press)

**COUNCILS ARE NOT  
CONSTITUTIONALLY LAWFUL  
VOTE - NO - WHEN A NATIONAL  
REFERENDUM  
IS BROUGHT TO THE PEOPLE OF  
AUSTRALIA,  
WE CANNOT AFFORD FOR COUNCILS  
TO BECOME A THIRD TIER OF  
GOVERNMENT.**

**WHY ?**

**Local Councils are PRIVATE  
COMPANIES with ABNs  
Their By-laws and Statutes apply only  
to their own staff.**

**Their true purpose is to provide  
essential services + maintenance  
If they become “government”  
your rates will soar unabated.**

Local government and the associated  
“Acts” (*illegal*) that support it have  
reverted us back to the dark ages before  
the Magna Carta and the Bill of Rights.  
We are now subject to “off with their  
heads legislation” ... all done without  
mandate.

The respective State Local Government  
Acts (*illegal*) seek to enable council staff  
to commit trespass, theft, debt bondage  
and extortion, And yet this “panel” and  
the political parties think this abuse of  
power deserves Constitutional  
recognition. We are now faced with the  
Stalinist anti-freedom political conditions  
today as the people faced under James II.

***Bring on the next Glorious Revolution.***  
What people want, is a reduction in the  
cost of living and the right to the quiet  
enjoyment of their hard won private  
property, without harassment and State  
sponsored extortion.

**Local Councils in Referendum 1988**

(This was the 3rd attempt since 1901)

**Question 3 from the referendum was:**

A Proposed Law; 'To alter the Constitution  
to recognise local government.' Do you  
approve of this alteration ?

**The SPECIFIC (Federal Referendum)  
proposal was: Constitution Alteration  
(Local Government) 1988.... 119A,  
It asked you the people ...**

***"Each state shall provide for the  
establishment and continuance of a  
system of local government, with local  
government bodies elected in  
accordance with the laws of the state,  
and empowered to administer, and make  
BY-LAWS FOR, their respective areas in  
accordance with the laws of the state"***

**Note the words - establishment and  
continuance - for reasons stated before,  
Local Councils were not lawfully established  
as Government and the referendum asked  
your permission for them to be so.**

**The entire 1988 referendum was  
REJECTED by the will of the people.  
It obtained NO majority in any State and an  
overall minority of 3,084,678 votes.**

**So why do they desperately  
want recognition ?**

**Simple - if councils and staff, (ie - those  
“wannabe policemen and women”) don't  
get it, they could all end up in jail or lose  
their jobs. The general public is starting  
to wake up to their fraud and extortion  
tactics to obtain revenue to feed their  
own bureaucracy.**

**When we DO see a referendum, and once  
again, thinking people vote "NO", then  
thousands of major Writs need to be  
prepared now and placed in "ALL" courts  
around Australia charging local  
councillors personally for their past theft  
and extortion via rates, parking fines,  
land taxes ..... and don't for a moment  
think those in admin are ignorant of their  
actions ... they know exactly !**

**Local Councils are PRIVATE  
COMPANIES with ABNs  
Their true purpose - to provide  
essential services + maintenance.**

**If this was done without their top  
heavy bureaucracy, your rates would  
be a fraction of what they are now**
