FOR IMMEDIATE RELEASE

USCENTCOM conducts three raids in eastern Syria

TAMPA, Fla. – Over the past 48 hours, US Central Command forces conducted three helicopter raids in eastern Syria resulting in the detention of six ISIS operatives, including al-Zubaydi, an Islamic State Syria Province Senior Official involved in the planning and facilitation of ISIS attacks in Syria.

Extensive planning went into these operations to ensure their successful execution. Initial assessments indicate no civilians were killed or injured.

“These partnered operations reaffirm CENTCOM’s steadfast commitment to the region and the enduring defeat of ISIS,” said Gen. Michael “Erik” Kurilla, CENTCOM Commander. “The capture of these ISIS operatives will disrupt the terrorist organization’s ability to further plot and carry out destabilizing attacks.”

It would appear that Turkey and the US WH Mil are also in coordination/communication regarding Syrian-based S&D missions.

This could not have happened without interoperational channels being established, if for nothing else, a friendly "hey this is happening".

Who funded ISIS? Who else?

Israel last for a very specific reason.

Trust the Plan.

Netanyahu to Release Evidence of Washington Pedophile Ring

Israeli Prime Minister Benjamin Netanyahu just declassified 400,000 documents that expose child trafficking and a child sex ring in Washington.

Following Obama's decision to abstain at the U.N. Security Council earlier in the week, Netanyahu has warned him that he is willing to release information that will potentially damage powerful people in Washington.

"From now on," Netanyahu said, "with one touch of the keyboard everyone will have access to the documents and can trace what happened to the children."

OH CANADA

>Canadian PM Trudeau signed a Pandemic Control Deal with the CCP even before COVID-19 was officially detected. Canada's Public Health Agency had

signed its first-ever contract with cellphone-based pandemic-monitoring agency BlueDot.

Prime Minister Justin Trudeau's daily itineraries from 2022 reveal that he worked 0-2 hours for 42% of the year.

Trudeau worked 0-2 hours a day nearly half the year, 84 days off

For 154 days of the year (42%), Trudeau's itinerary shows:

- 84 personal days off
- 20 days strictly marked as "private meetings"
- *50 days with only one brief working item

*This number is actually 55, but five of the days were full travel days / in-person cabinet retreat / all-day Emergencies Act testimony.

The astute observer sees what is going on here. Castro does not lead, he obeys his masters and simply rubber-stamps their bidding. In return he is financially rewarded and kept in power.

TIDBITS

>The Big Call by Bruce (complete Intel Narration not previously provided):

"We have some pretty cool Intel tonight – I believe we get "restitution money" of the trading of the Birth Certificates and all other bonds in our names - those have been calculated to be paid back to us – and in addition to that under Nesara – Taxes paid - interest on any loans basically any bank loan. Not personal loans - all payable back to you from for 61 and older starting on the 16th January - and then the next age group 48-60 done sometime in February – starting at the 24 years of age which might be in the month of March 24 – 48 years olds and with that would also be a requirement for you not to quit your job – so will be really interesting - so I know I'm preaching to the choir - but everybody in the US who is a citizen will get this and something they will really look forward too – if you're on SS it will probably come as a Direct deposit but this is completely separate -

So the amount - let's say average \$100,000 for the next 11 years of payments starting mid Jan - now the lesser groups I don't know those averages. Chances are the more you'll get because of the length of those Bonds have been traded.

"No Bond Holders there are monies moving into Bond Holders accounts as we speak - and activated and the amount I've heard is quatro septillion Dollars. That ends up a number in front of 33 zeros – a big tranche of funds taking place Thurs/Fri and Saturday and then another email for Monday at noon should get access and certainly by Tuesday gain access and use those funds, the 1% of the total which is substantial.

"Now the Bond Holders money is a structured payout – NOT for us in T4B - only for the Bond Holders. Bruce thinks there are 11 different payments. It's interesting because we've talked about that shotgun start for them to gain access and then for us to set appointment and gaining access for the first 90 days and with our projects and we've talked about how much we could put in for the first 90 days and also that book who we must NOT fund - but if you do give to those on that list – your accounts will be frozen - so please do not do that. Might be more than 55 pages now.

"So where we are now - So Bond Holders Monday/Tuesday and we have a situation have people talking to them about this and bank screens showing active rates on the front screens for a few days now – so unless pending or

flashing and they have been good to go – so they’ve been up and down – but some of our contacts and sources have gone in and talked about this – so a WF regular branch – said Thursday or Friday BUT to be perfectly honest you should come back Tuesday when the Contract Rate is UP. WOW - so there is a contract Rate and they are willing to offer that to us even if we’re a Zim Holder – it’s really cool to think it is - and another source went to Chase and told almost the same thing - can’t do it today but come back Tuesday and the contract rate will be available – you know where the front screen roughly was which Dr. Shabibi said but now check to see what North Brent Crude oil is now per barrel and that will give you an idea - so my belief based on that and other people that we have talked to – we have basic confirmations for Wednesday so notifications Monday - so first exchanges Tuesday evening and then we go from there – now where you are depends on how long the RC will be open. Part of the reason we didn’t go this year was the StarLink system wasn’t totally integrated and Bruce did mention those three countries and also ALL banks Globally need to be Basel 4 Compliant by Sunday 1st – their doors shuttered and the electricity turned off and they will be finished. So the push is ON to make sure that compliance is met. So that's been the holdup.

“So the concept is Mid March all the currencies in the world should be on par with the US Dollar - being on par or equal to the Dollar - any country. All countries will be raised up a total level playing field around the world and we are expecting an announcement from Charlie Ward for Gesara and Nesara we don’t know who will announce that for us – and also S Parkes for South America and also talking about Africa and Zimbabwe will be basically the wealthiest country in the world - and ALL of Africa will be brought up to a much much higher standard. How about Tesla free energy - well it’s not that far away and already the cell towers are refitted to that end.”

>Just one day after Tate exposed Greta Thunberg and her lies and the globalist lies to brain wash teens into climate change to tax the sun for being too hot. The number one searched man in the world wide net, Tate was arrested the next day for human trafficking ? It's no coincidence that the GLOBALIST and Rockefeller, Rothschild who created climate change back in early 1900s at Bohemian Grove created climate change through Greta Thunberg great-grandfather Svante Arrhenius created greenhouse theory after being part of Bohemian Grove gatherings and was placed by ROCKEFELLERS family as green house gas guru, so it's no coincidence the [

- The CIA was behind the 2014 coup in Ukraine that killed hundreds of innocent men, women and children in order to install a NAZI government: <https://rumble.com/v1qmfzb-confirmed-cia-was-behind-the-2014-coup.html>
- US spies pushed Twitter to censor 'anti-Ukraine narratives,' files show. The Pentagon, CIA and other US intelligence and law enforcement agencies were getting increasingly "more aggressive" with their takedown requests, the last trove of Twitter documents reveals, effectively pushing the platform to engage in censorship of foreign policy stories that ran against the Washington-approved narrative. "The files show the FBI acting as doorman to a vast program of social media surveillance and censorship, encompassing agencies across the federal government – from the State Department to the Pentagon to the CIA," journalist Matt Taibbi wrote in the Christmas Eve edition of the Twitter Files, released with a blessing from the company's owner Elon Musk.
- For years and under complete approval of the FDA, the dangerous chemical Hydrofluorosilicic Acid (fluoride) has been added to the US water supply.

>Sun. 25 Dec. China calls the US Inc. a 'direct threat' to the world. Washington intentionally hypes up the "China threat" as an excuse to boost its military spending in an effort to maintain its global dominance, the Chinese Defense Ministry said in a statement on Saturday, after President Joe Biden signed the 2023 US National Defense Authorization Act into law. "Facts have proved more than once that the US is the direct threat to the international order and the culprit of the regional turbulence," said the ministry's spokesman, Colonel Tan Kefei. The statement went on to claim that in pursuit of its own interests, the US on multiple occasions "either waged wars against other countries or created conflicts, causing massive casualties and displacement of innocent civilians." #RT

Joe Biden jet setting off to St. Croix for his weekly vacation instead of staying in DC for one extra day to sign the omnibus bill, causing it to now have to be flown by private jet to the Caribbean, is the perfect description of our government. It gets no better than that.
